Michro spaces:

21

Hidden characters:

0

After checking the Similarity Report, the following conclusion was made:

☒ Borrowings identified in the work are legal and do not constitute plagiarism. The level of similarity does not exceed the permissible limit. This way the work is independent and accepted.

☐ The work is returned for correction.

☐ Borrowings and plagiarism or deliberate textual distortions (manipulations) were identified as alleged attempts to conceal plagiarism, which make the work contrary to the requirements of Appendix 5 of Order 595 of the Ministry of Education and Science of the Republic of Kazakhstan, the law on copyright and related rights of the Republic of Kazakhstan, as well as the code of ethics and procedures. Thus, the work is not accepted.

☐ Justification:
