SHAPING THE NEXT GENERATION OF HEALTHCARE LEADERS

A LEGACY IN EDUCATION EXCELLENCE

For more than 77 years, Avila University's School of Nursing in Kansas City, Missouri, has built an outstanding reputation for preparing healthcare leaders who make a meaningful impact—locally, nationally, and globally.

ARIZONA: A GROWING HEALTHCARE & BIOSCIENCE POWERHOUSE

Arizona has become a national leader in healthcare innovation, attracting global attention for its rapid growth in medical research, public health infrastructure, and clinical services. Phoenix and the Greater West Valley region host world-class healthcare institutions such as: Banner Health, Mayo Clinic (top-ranked in the U.S.), Phoenix Biomedical Campus. These facilities offer an environment where healthcare professionals can observe the latest clinical innovations—including precision medicine, telehealth expansion, AI-assisted diagnostics, population health systems, and emerging public health models.

AVILA UNIVERSITY ARIZONA: A MODERN CAMPUS IN GOODYEAR, ARIZONA

Goodyear, Arizona—one of the fastest-growing healthcare and innovation hubs in the United States—is home to major hospitals, medical centers, and biotechnology companies. Students benefit from a front-row seat to regional healthcare innovations and direct exposure to professionals shaping the future of patient care. With a commitment to academic rigor, personalized mentorship, and community engagement, Avila University Arizona is where tomorrow's healthcare professionals begin their leadership journey.
