FY2026 ERAN
(International)

Notification of Acceptance

We are pleased to notify you that your proposal for Environmental Radioactivity Network Center (ERAN) FY2026 Collaborative Researcher Grant has been accepted as below.

Research Title: Environmental Radioactivity and Public Health Risk Assessment of Radon and Heavy Metals Contamination in Groundwater in Uranium-Affected Regions of Kazakhstan

Grant Number : I-26-31

Grant Amount : JPY120,000.-

Host Researchers: 細田 正洋・床次 眞司・田副 博文・大森 康孝

Co-Researchers : Kairullova Madina

- ✓ The Steering Committee, which decided on the adoption of your proposal, commented that it is strongly expected to publish your joint research results in Scopus journals and cite the ERAN papers in your paper in order to enhance impact of ERAN papers. We hope that you will actively publish and cite each other's papers.
- ✓ When your paper is accepted and published, please report your paper information to the ERAN Secretariat as soon as possible via the following URL:
<http://www.ied.tsukuba.ac.jp/ernc/sending-paper-information/>
- ✓ If you have already been adopted for multiple years and wish to continue the joint research in the following year, it is an important point in the selection process whether or not you have published papers (should be listed in Scopus) and provided their information to the ERAN Secretariat. Failure to report publications will result in a reduction of research funding or denial of continuation.
- ✓ Please indicate in the acknowledgments of your paper that it was supported by ERAN as follows.
This work was supported by ERAN x-26-xx.
