

Support letter for the publication of the manual "How to Diagnose ALS"

To whom it may concern,

It is with pleasure that I recommend the manuscript "How to Diagnose ALS" in the Journal of the Republican Center for Health Protection of the Ministry of Health of the Republic of Kazakhstan "Journal of Health Development" (Kazakhstan). This document will be relevant to Kazakh doctors and clinicians.

Please let me know if you need any additional information and I will be happy to provide it. The publication costs can be covered by the research grant awarded to Prof. Kuanova and me as leading scientists and our research team.

Best wishes Dieter Riethmacher
