

REVIEW

of Foreign Scientific Consultant for the Dissertation Work of Kaliyeva Dinara Yelubayevna on the topic "Optimization of Methodological Approaches for Studying the Accessibility of Medicines in the Republic of Kazakhstan," submitted for the degree of Doctor of Philosophy (PhD) in the specialty 8D10103 - "Public Health."

The dissertation of Kaliyeva Dinara Yelubayevna, submitted for the PhD degree, is a relevant and significant scientific study focused on improving the accessibility of medicines for the population of Kazakhstan. In the context of high import dependency and economic instability, research on drug accessibility becomes especially pertinent, and developing methodological approaches for its analysis is valuable for the healthcare system.

In her work, the author conducted a comprehensive analysis of the physical, economic, and informational accessibility of medicines. The doctoral candidate put forward scientific positions and results that are logically interconnected within the overall structure of the research. Each objective is reflected in the dissertation's conclusions, and the work provides a detailed description of the study design and methodology.

The PhD thesis clearly defines the research's subject, purpose, and objectives, and reveals the novelty and practical significance of the topic. During the work on the dissertation, the scientific aim was achieved. Conclusions and practical recommendations specifically focus on solving the research goal and have practical significance. The content of the work is well substantiated and presented.

The main provisions of the dissertation described in this scientific work are of scientific interest not only at the local, but also at the international level. This is confirmed by the successful publication of the research results in an international peer-reviewed journal indexed in the Web of Science and Scopus database, approved local journals as well as oral and poster reports in the materials of conferences.

Based on the above, I consider that the dissertation work Kaliyeva Dinara Yelubayevna is recommended for submission to the Dissertation Council for the degree of Doctor of Philosophy (PhD) in the specialty "Public Health".

Sincerely,

Foreign scientific consultant:

Nabil Joseph Awadalla
